FERTILITY

BEGIN YOUR PATH
TO PREGNANCY IN
EXPERIENCED HANDS

Starting a family can be a challenging journey for many. Fortunately, Eve Health has been providing world-class fertility treatments and assistance to thousands of couples and women for many years with great success.

Our team consists of caring and experienced specialists, including advanced laparoscopic surgeons and CREI sub-specialists who possess advanced training in reproductive endocrinology and infertility. We prioritize understanding your individual case and choosing the best treatment plan to suit your personal and clinical needs.

Our collaboration with Monash IVF guarantees that our fertility patients have access to the most advanced technologies and scientific knowledge.

At Eve Health, we take pride in helping you achieve your dream of starting a family.

OBSTETRICS

WITH YOU, HAND
IN HAND EVERY
STEP OF THE WAY.

Eve Health is Brisbane's largest obstetric group with a group of skilled obstetricians, midwifery support, antenatal education sessions and an exclusive Eve Health parents' group. Our obstetricians personally care for their patients from their first appointment, through pregnancy, delivery and onto postnatal care.

We strongly believe the one-on-one relationship our patients have with their obstetrician provides the best opportunity for a well-managed pregnancy and a safe, successful delivery.

On the rare occasion that an obstetrician cannot be at the delivery of your baby, another Eve Health obstetrician, who understands and has knowledge of your pregnancy, will attend your delivery.

Our Eve Health obstetricians share a philosophy of personal, compassionate and comprehensive pregnancy care.

GYNAECOLOGY

WE BELIEVE
EVERYONE IS
UNIQUE AND SO IS
THE CARE WE PROVIDE

At Eve Health, we understand that gynaecological health is a sensitive and personal matter. That's why we provide a compassionate, patient-centred approach to care. Our team of specialists are highly experienced in working with patients of all ages and backgrounds, and take the time to listen to their patients concerns and answer any questions.

Whether the concern is menstrual irregularities, pelvic pain, or other gynaecological symptoms, we are here to help. Our team of experts work with each patient to develop a personalised treatment plan that addresses all needs and concerns.

We are committed to providing a safe, supportive, and comfortable environment where our patients can receive the care they need to live their best life.

DIABETES EDUCATION

At Eve Health, we understand the unique challenges that come with gestational diabetes and diabetes. That's why we offer a dedicated diabetes educator to assist those who have been diagnosed during pregnancy or have an existing diagnosis.

Through our diabetes education session, we provide comprehensive guidance on glucose level testing, a seven-day healthy eating plan tailored to vegetarian or non-vegetarian needs, as well as exercise and food advice.

LACTATION SERVICES

We understand the challenges associated with breastfeeding and are dedicated to providing assistance throughout the process. Led by the skilled Lactation Consultant Candice Cherry, our lactation education class offers a wealth of knowledge to ensure a successful journey.

Additionally, our lactation services extend to personalised postnatal consultations for new and expecting parents.

MENOPAUSE CLINIC

Menopause is the natural biological process that signifies the end of a woman's reproductive years. Specifically, it marks the point when a woman has gone 12 months without a menstrual period, indicating the cessation of her menstrual cycle.

At Eve Health, we specialise in providing expert care and support during the menopause and perimenopause transition. Our dedicated menopause GP's are committed to helping their patients navigate this significant phase of life with comfort, confidence, and optimal health.
